

**SUCCESSFULLY**  
**EXPORTED**  
SHIPMENT OF 2 SOILMEC RIGS

Neutral Consolidation services had the privilege to handle and export shipments of 2 Soilmec Rigs from Mumbai to Singapore. The Rigs were weighing 50,590 kgs & 38,200 kgs i.e. a total shipment of 88,790kgs. The shipment was customs cleared and handed over to the NYC. liners on time but due to the delay in arrival of the vessel to Mumbai port, the cargo was kept in the port under supervision. Immediately on berthing of the vessel we arranged the movement and loaded the cargo into the vessel under the liners supervision.

TOTAL SHIPMENT OF  
 **88,790kgs**

VESSEL  
 **Level5**  
 **Singapore**  
**Singapore**

The same was done in the nick of time, as the vessel was sailing same evening and we had very little time for movement as this type of cargo requires to be self-driven inside the deck of the vessel and proper lashing to be done to avoid any damage to the vehicle. The rigs were loaded on level 5 of the vessel which had a total of 12 levels to load such odd size cargo.

The exporter were very happy with the handling of the shipment from our end.
